

Lowestoft Community Governance Review

Summary of responses for initial phase of consultation

During the initial stage of consultation for the Lowestoft Community Governance Review, 261 residents submitted their views in response to 2 questions. The first question asked residents for their views on the creation of a new town/parish council(s) for Lowestoft and the surrounding areas, and 69% of the 261 respondents were in favour of a new council(s) for their area. The second question of the survey was regarding 'community identity', and the question asked residents to describe where they felt their area of community identity was.

The responses received to Q2 of the survey have been categorised into the types of areas that residents gave in their response. Some people said that their area of community was very local to them, with responses such as 'town centre', or 'Rosedale estate', whilst others felt their community was broader, with responses such as 'Lowestoft', and 'Waveney'.

Below is a list of all of the different types of "areas of community identity" that respondents gave in their answers to Q2, along with a tally of how many people gave that description in their answer.
