

598.11a Request from member of the public for paranormal investigation of town hall

Hello,

I have noticed that for that last few years Lowestoft town hall has been empty and not used. I run a local team that investigates the paranormal. What I was wondering is what is the possibility of potentially conducting a 24hr investigation with my team. If this is something that could be possible please could you email me back.

I look forward to your reply
