

Item 13.5a – Request from Waveney Norse to install temporary water points in Kensington Gardens for the First Light Festival

Hi Mark

Please see attached pictures of proposed locations for temporary water points in Kensington Gardens. Obviously both Town and district want to support this event but I need the nod from you that you are happy for non-concussive taps to be installed for the duration of the festival and removed afterwards (no cost to LTC).

Photos of the two locations.

1. Rear of pavilion (seaward side, not behind café)
2. Rear of A47 block (pipe external and left rhs of gas box)

Any chance we can discuss and agree at our meeting please.
