

We just wanted to let you know about a brand-new and very exciting fund that we are launching. It is the [Sea-Changers Coastal Fountain Fund2020](#), supported by Bunzl plc.

The aim of the new fund is very simple:

- *To prevent or reduce negative impacts on UK coastal and marine environments and species by **reducing marine litter, through the provision of well-located coastal water fountains** that will significantly reduce the use of non-reusable plastic drinks bottles.*

A maximum sum of £2,000 per fountain is available (people may apply for multiple refill stations within an application if they wish to do so).

If you know of any organisations or groups that would be keen to purchase and enable the installation of a water bottle refill station in their local coastal community, please do let them know about the existence of the fund. It is likely they will already have some plans in place and be seeking that final bit of funding to make things happen.

The deadline for applications is 28th February 2020. You can find out more here:
