

Comments from member of the public regarding ladies public conveniences on Pakefield Street:

Dear Town Council,

A few things need addressing please:

- Ceiling light out by hand wash machine.

- No soap for at least one month, probably because no one has checked to see if there is a malfunction in the machine.

- Always a bit of an unpleasant aroma! A wall mounted air freshener dispenser would work well.

No need for a response or explanation, other than confirmation that my feedback has been received.

Many thanks,
