

78 To note that East Suffolk Council has launched its map-based consultation on the Cycling and Walking Strategy, and to consider any actions for the Town Council following the presentation which preceded this meeting 78.2. To consider the draft Cycling Strategy

I don't know what preceded this meeting, but these are my initial thoughts-

- Suffolk highways have stated maintaining cycle paths is not a priority-therefore the faded, poor surfaces deter cyclists- Yarmouth rd one is very poor.
- the high street has very few racks, the town centre not enough
- cycling to the north of Lowestoft, Hopton, blundeston and Yarmouth is very tricky
- rental bikes should be available at all stations plus suggested routes
