466. Planning applications

a. Consideration of the following planning applications (all available on www.eastsuffolk.gov.uk) and deciding the recommendations of the Council:

Reference	Address and Description	District Ward
DC/20/3473/FUL	14 Merrifield Road - new dwelling	Kirkley and Pakefield
It was proposed by Cllr Taylor, seconded by Cllr Barnard and unanimously agreed to recommend refusal of this application due to overdevelopment of the site and the impact of the dwellings to the rear of Merrifield Road.		
DC/20/3472/FUL	St Mary's Catholic Primary School, Kirkley Cliff Road - The proposal seeks to soft and hard landscape an area of the schools land in order to extend their current outside play areas, including a new 2.0m high weldmesh fencing along the boundary to Kensington Gardens. The proposed fence would be the same as the school currently have on the existing southern boundary of the play area.	Kirkley and Pakefield
It was proposed by Cllr Taylor, seconded by Cllr Hardie and unanimously agreed to recommend refusal of this application as the original intended use for this space, when transferred to the school, was for a garden - this application suggests that grass will be replaced with concrete and would be create a non permeable surface. The Town Council would like a permeable surface to be considered. Secondly, the standard of design of the fence is not appropriate for the conservation area and to adjoin the setting of the heritage park.		
DC/20/3389/FUL	63 Stevens Street - Dropping of kerb to facilitate off road parking on already complete hard standing to assist with disabled driver parking	Harbour and Normanston
It was proposed by Cllr Taylor, seconded by Cllr Barnard and agreed (three votes in favour, two against) to recommend refusal of this application due to the resultant loss of street parking due to the creation of the drop kerb. It was suggested that a designated parking space may be an alternative solution.		
DC/20/3462/PN3	40 Alexandra Road - Prior Notification - Change of Use from	Harbour and
