

Please could you circulate my comments below to all councillors ahead of the next full council meeting to be held next Tuesday 27 October 2020?

With so much in the news at the moment, both locally and nationally, about children going hungry in the school holidays, it seems very inappropriate to be spending £4,000 on luxury hampers so that the council can officially “thank” a few chosen key workers. Wouldn't it be better to spend this money locally, in Lowestoft, on feeding needy children for example?
