

## Item 24.2 Advice from Norse regarding Fen Park play area matting

As discussed please be advised of the following prices for Matta surfacing to each item of equipment along with recommendations. All prices are plus VAT

### Supernova £3100 (priority)

Existing wetpour surface is repeatedly damaged and this unit would benefit from the surface upgrade.

### Junior Multiplay £7545 (priority)

This is the larger multiplay with damaged Nott Sport surface. Both surface and kit are getting old and ideally could be replaced, however replacing unit with something similar has significant costs. The kit itself should remain serviceable for a few more years but the surface does really need attention now. I would therefore recommend the surface being upgraded.

### Car Spring £275 &

### 4 seat springer £620

Modest costs make these worth considering to improve aesthetically. As toddler specific items also some merit.

### Toddler Swings £2585

Serviceable unit and surface in reasonable condition. Would benefit from upgrade but not highest priority.

### Seesaw £830

An older piece of equipment and the surface is actually in pretty good order. Costs are modest but would probably hold and consider within a wider project of improvement.

### A frame climber £1550

Another older piece of equipment with limited play value, surface currently in reasonable order. Would recommend considering replacing the unit in time, therefore save surfacing cost.

### Cycle Roundabout £4440 plus preparation cost (est £1500)

It is not possible to do a straightforward overlay on this item. The total cost really outweighs the value of the item. I would recommend leaving this one until it is replaced, start thinking about the removal/replacement along with other items.

In all cases would recommend tile colours and pattern as per the existing already on site. Everything is costed per the square meter so unlikely to be much movement on costs for multiple pieces. There is normally a 4-6 week lead in from placing the order but if you are interested in any of the options let me know and I'll see what can be done.
