

The reason for this email is a request to install some sponsorship boards at the ground, I have attached a document to give you a visual of the proposal.

The reasons for us wanting to install these boards in the location detailed is to provide a safety barrier to people visiting the ground and having an accident on the sharp rocks that are on the top of the wall, in addition this sponsorship will help the club to bring in funds to maintain standards and keep the club running.

Please can you provide this information to the relevant committee for discussion.

Should you require any further information please let me know.
