

- Proposed/Potential date: 29th June
- Funding: Hopefully the event will be self-sufficient and will come at no extra cost to LTC but would like up to £10,000 upfront costs that will be returned in entry fees.
- Proposed/Potential Course: <https://connect.garmin.com/modern/course/320256085>
- Expected Attendance: Hopefully approx. 600-800 runners
- Other Supporting Bodies: Waveney Valley Athletic Club, Lowestoft Park Run and Lowestoft Road Runners have all been contacted to see if they will support the event (e.g. Marshall)
- Start and Finish 'Runners' Village' at Links Road Car park with food vendors.
- Other opportunities for local businesses to get involved (Custom race t-shirts? Medals?)
- Good opportunity to promote all the other great stuff LTC do plus grow our social media platforms

Please note this is in its very early stage of development and currently all relies on getting permission from the relevant people to run on their land! The plan is to get the race UKA verified making it an official UKA race which will attract even more runners. In addition, it is an extremely flat course, therefore, it will be a quick course which in turn attracts more runners.

Another good selling point is it will be the UK's most Eastly Race!
