198. Progressing development of the Town Hall:

198.1. Feedback from the public survey – Items 198.1 and 198.2 were taken together and a presentation was delivered by MossKing Associates Ltd, who are developing the business case for the Town Hall. An update was given on the progress so far. Analysis of a public survey has been completed and the report circulated to Councillors. Potential uses for the Town Hall are now being explored, which will take account of feedback from the survey and will be based on feasibility, cost and the level of footfall which would be delivered. There has been engagement with local heritage and arts groups. Hudson Architects have been appointed to update the designs for the Town Hall. The capital cost is estimated at approximately £4million. Two key funders will be involved, the Government Towns Fund and the National Lottery Heritage Fund (NLHF). East Suffolk Council has secured £2million from the Towns Fund, subject to a business case. The NLHF will be a key match funder, but the heritage content of the project needs to be increased to secure a grant from this fund. The top recommendation from the survey was for part of the space to be used as a museum. From here, visitors could be directed to other museums in the town. The stages of preparing for and applying for funding were explained. The timeline for achieving the aim of a stage one submission to the NLHF was explained. The expression of interest will be submitted tomorrow, subject to the Council's approval today. It was queried whether the effects of the pandemic will influence the economic case for the Town Hall in the future. Certain elements will be affected to an extent, but opportunities have also been presented, such as the potential for a co-working hub space, given the rise of hybrid working arrangements. It is
